11. **Read the story and answer the questions.**

Weather.

Weather is the daily condition of a place. There are four types of weather, rainy weather, sunny weather, cloudy weather and windy weather. The weather makers are rain, sunshine, cloud cover and wind.

Rain helps us to get water for home use and to water the farmer's crops. It helps them to grow well. Sunshine dries our clothes and the farmer's seeds. Clouds help us to have a good weather without too much sunshine. The wind helps to winnow the farmer's seeds. It can also help to dry our clothes.

In a rainy weather, people carry umbrellas, wear sweaters and gumboots. People also wear sweaters in the windy and cloudy weather. In the sunny weather, people carry umbrellas and go under shades. But children like going out to play in the sunny weather. They play hide and seek.

Questions:-

(a) Write the title of the story.

(b) What is weather?

(c) Name any two weather makers.

(i) _____

(ii) _____

(d) What helps crops to grow well?

(e) In which type of weather do children like going out to play?
